WALK THE TALK WITH OUR MENTOR

Dr Shelly Jain has been contributing to teaching, research and writing with an objective of social development for the last 33 years. She joined the State Tribal Department in 1988 and has been working with EMRS since 2007 as a lecturer. Her students belong to the tribal community and are first generation learners. She has been actively involved in imparting life skills, communication skills and critical thinking skills which will make them confident and shape their overall development. She strongly believes that the GOAL program will provide a new sky to tribal people and will help them explore the world. This virtual platform will provide them with ample opportunities to develop their vocational and life skills. She also feels that the program will make them digitally literate and help them in getting sustained livelihood opportunities.

NOTHING WORTH HAVING COMES EASY

GOAL Mentee **Sarita Uikey** was born and brought up in Indore, Madhya Pradesh and is currently pursuing her MBA from IIM Kozhikode. She belongs to the Gond tribe. Her goal is to serve the tribal community, specifically by providing education and improving their lifestyle. She considers GOAL initiative to be a platform from where she can start this journey to become a change maker. She aims to gain leadership and entrepreneurial skills through the program. She feels the lack of awareness in the tribal youth regarding digital skills and the inability to manage finances due to unavailability of resources is a major roadblock in their development process. Hence, she would like to work and serve her tribal community with good education facilities and work on financial aid from the BFSI sector for tribal entrepreneurs.
